PROFILE

Turning data into decisions, and objectives into results.

Experienced in real-time analysis, workforce management and team leadership. I keep operations balanced between efficiency, service quality and people performance. I monitor live operations, optimize schedules, build reports and analysis, and handle operational tasks with determination and focus. My background combines strong analytical insight with clear, empathetic communication.

HIGHLIGHTS

- Most Collaborative Employee · 2023**
Selected as the winner for the most collaborative employee of the project.
- Business trip to Cairo · Feb 2024**
Two weeks in Cairo to train and support the team in the company's newly opened site.
- Scheduling web app · Google Apps Script**
Built a scheduling web app for the team from start to finish. It is now officially used by the company.

EXPERIENCE

Real Time Analyst

NOV 2025 – PRESENT

Kaizen Gaming · Athens · Hybrid

- Monitor real-time performance across multiple markets, managing queues and intraday staffing to meet service level targets.
- Coordinate with multiple BPO partners on coverage needs and on how capacity is distributed across channels.
- Track incidents that drive higher incoming volumes, and take fast action to protect service level.
- Support operations live: reallocate agents between queues, adjust breaks and overtime, and keep stakeholders updated through the day.
- Run root cause analysis on service level results, and recommend actions to improve them.
- Contribute to capacity planning and maintain an accurate headcount view across markets and partners.
- Build reporting and scheduling tools with Google Apps Script.

Customer Service Team Lead

JAN 2025 – OCT 2025

TTEC · Athens · On-site

- Led the Croatian customer support team, with full team-lead responsibilities.
- Reviewed agent performance and KPIs, and coached team members one to one.
- Organized the team's daily work, schedules and priorities.
- Handled escalations and supported agents on complex customer cases.

Planning Officer

OCT 2023 – NOV 2024

Webhelp · Athens

- Reviewed short- and mid-term forecasts and worked on capacity planning.
- Analyzed commitments against on-site and off-site shrinkage.
- Built accurate schedules for every queue, interval by interval.
- Produced planning reports and took daily action on productivity goals.
- Coordinated with operations and client teams on staffing needs and planning changes.

Real Time Analyst

MAY 2021 – OCT 2023

Webhelp · Athens

- Monitored volumes, agent statuses, productivity KPIs and SLA live, to reach commitments in every interval.
- Took fast, efficient actions in daily collaboration with the Intraday management team.
- Managed overtime, shift swaps and breaks in the WFM tool Teleopti.
- Ran ad hoc reporting and analysis, and worked with management on strategic and tactical plans.

Customer Service Team Lead

NOV 2019 – MAY 2021

Webhelp · Athens

- Built open, professional relationships with my team.
- Provided coaching and guidance to help team members reach objectives aligned with company values.
- Gave constructive feedback and motivated the team to achieve their goals.
- Monitored team KPIs and quality, and reported results to management.
